BATTLESHIP NORTH CAROLINA

The Battleship USS North Carolina BB-55 became the first of ten fast battleships to join American fleet in WWII. North Carolina BB-55 and her sister ship, Washington BB-56, comprised the North Carolina Class.

Commissioned on 9 April 1941, she was considered the world's greatest sea weapon. Armed with nine 16-inch/45 caliber guns in three turrets and twenty 5-inch/38 caliber guns in ten twin mounts, North Carolina proved a formidable weapons platform. Her wartime complement consisted of 144 commissioned officers and 2,195 enlisted men, including 86 Marines. During WWII, North Carolina participated in every major naval offensive in the Pacific area of operations and earned 15 battle stars.

After serving as a training vessel for midshipmen, North Carolina was decommissioned 27 June 1947 and placed in the inactive Reserve Fleet in Bayonne, NJ for the next 14 years. In 1958 the announcement of her impending scrapping led to a statewide campaign by citizens of N.C. to save the ship and bring her back to her home state. The Battleship arrived in her current berth on 2 October 1961 and was dedicated on 29 April 1962 as the State's Memorial to its WWII veterans and the 11,000 North Carolinians who died during the war.

Our Memorial Service will be held on the main deck at 11:00 am followed by a luncheon in the Wardroom, also on the main deck.
